# 1 Introduction

This user guide describes the use of the webPAS Waiting List module.

It details the facilities that comprise the Waiting List module, including the various screens and fields. It also describes processes and procedures in which the Waiting List module can be used.

Although this guide makes assumptions about the business rules for a generic installation, a given site will have its own business rules and the way in which the Waiting List module is used at your site may differ from the description in this guide.

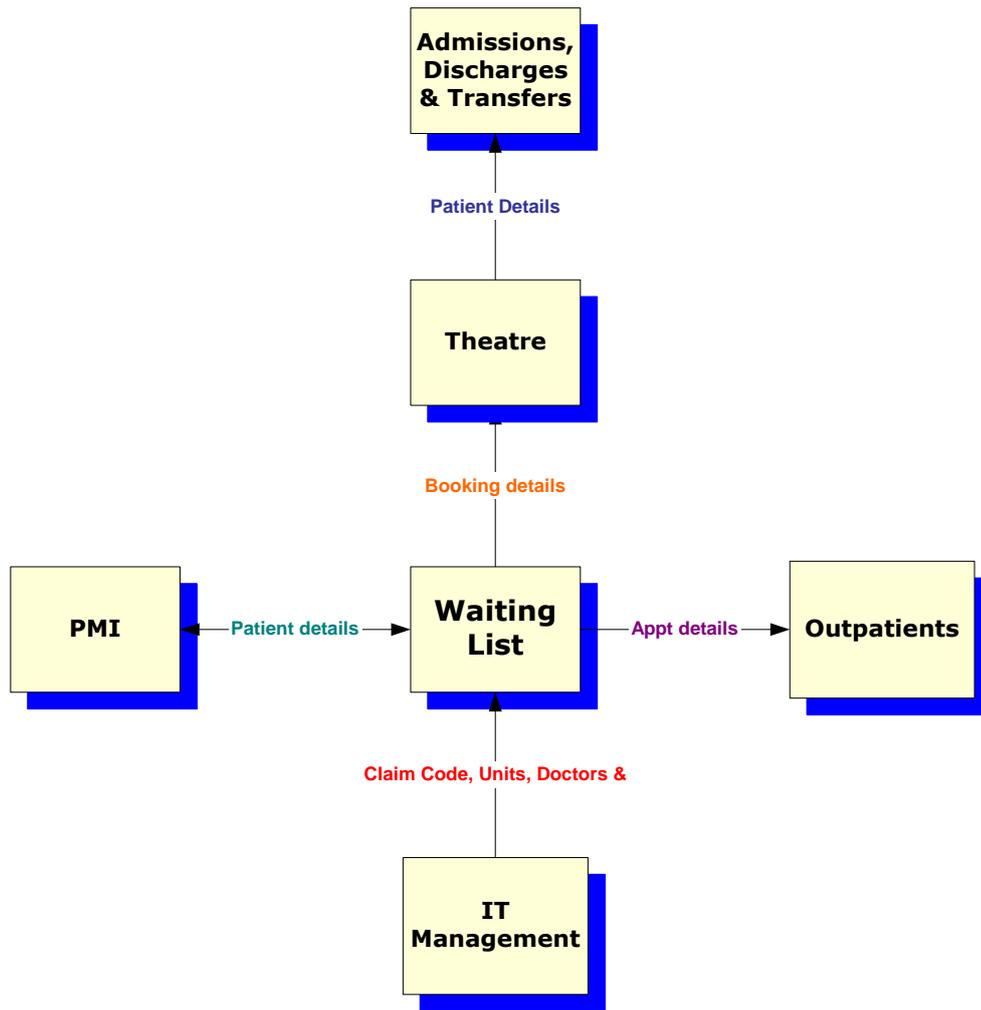

In addition, the flexibility of the webPAS enables sites to configure the Waiting List module to a sites specific requirement, including the layout of screens. Therefore not all fields described in this guide will be available to your configuration and indeed, additional (user-defined) fields may also be available. For details about your site's configuration, contact your CSC Solution Consultant.

Despite the diversity of needs in the health industry, organisations tend to operate in similar ways. The Waiting List user guide should be a useful resource and form a sound basis for in-house documentation developed for your site's particular configuration.

The Waiting List module provides the functionality to:

- Add patients to the Waiting List
- Manage the Waiting Lists by updating the status of patients on the Waiting List
- View the list by Unit, Doctor or Date
- Make admission and operation booking for patients on the list
- Print Letters for patients on the list.

The following diagram shows the modules to which Waiting List is linked:

## 1.1 How This Guide is Organised

This guide describes how to use the Waiting List module and is intended for use by Waiting List staff.

The Waiting List module can be configured with the Theatre module to enable the transfer of information from the Waiting List to Theatre and then to the Inpatient module for admission.

The facilities of the webPAS Waiting List module are divided into the following main areas:

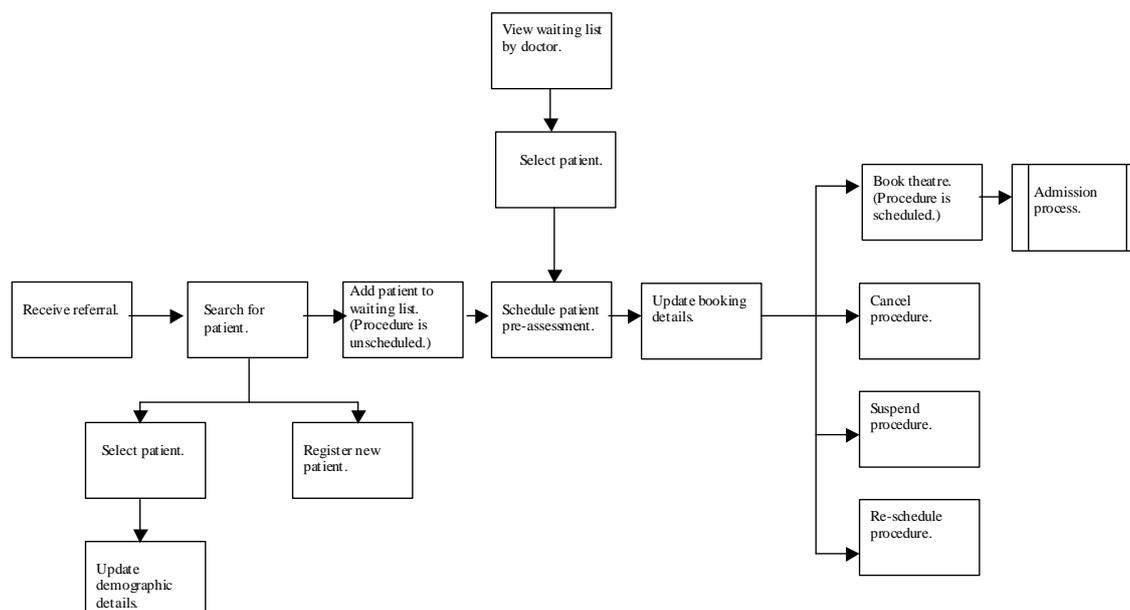

### 1.1.1 Enquiries

The Waiting List module is equipped with useful facilities for making enquiries on referral data during day-to-day operations. It enables users to search for a patient according to selection criteria and display details associated with a particular referral.

Once a patient is selected, users can perform various patient-specific tasks, such as viewing visits and referrals associated with a patient.

### 1.1.2 Waiting List Activities

The diagram below illustrates a summary of events in the Waiting List module.

For more information about the common activities performed using Waiting List, refer to the section [Waiting List Activities](#).

### 1.1.3 Reports

The Waiting List module provides extensive reporting facilities for patient information, bed days and wait list times.

For more information about the reports, refer to the section [Waiting List Reports](#).

## 1.2 Related Documentation

This user guide should be read in conjunction with the webPAS Standard Conventions User Guide, the webPAS ACC User Guide, the webPAS PMI User Guide and the webPAS Theatre User Guide.

Many of the options available in the Waiting List module are common functionality with the PMI and are described in detail in the webPAS PMI User Guide.

The webPAS Waiting List Configuration Guide details the set-up required for system parameters and Categories and Codes.

## 2 Searching for a Patient

### 2.1.1 Waiting List Search

The Waiting List search is performed in the same way as a local search; however the list of patients returned includes only those matching the search criteria with a Waiting List entry.

1. Select **Waiting List Search** from the appropriate patient level drop down menu.

The Waiting List Patient Search screen will display.

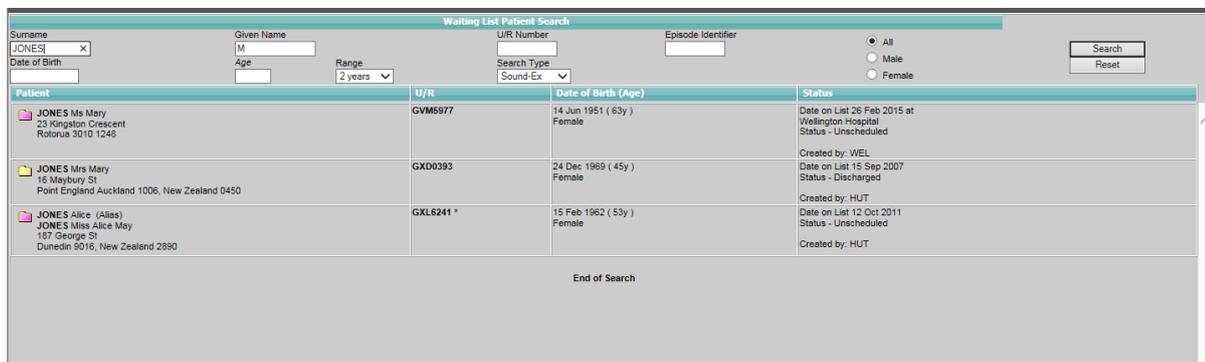

2. Complete the search criteria.

3. Click **Search**.

Matching records with a Waiting List entry will be returned.

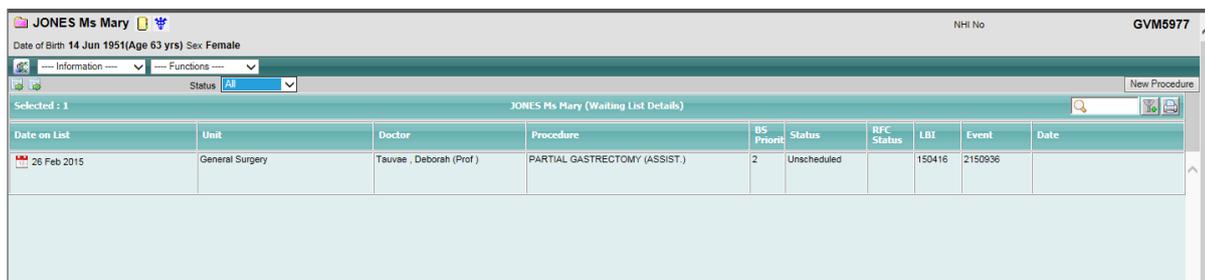

The Waiting Status is displayed with the date that the patient was placed on the Waiting List.

Patient	U/R	Date of Birth (Age)	Status
JONES Ms Mary 23 Kingston Crescent Rotorua 3010 1248	GVM5977	14 Jun 1951 ( 63y ) Female	Date on List 26 Feb 2015 at Wellington Hospital Status - Unscheduled

End of Search

4. Click the relevant patient folder to access the patient's Waiting List Details screen.

Date on List	Unit	Doctor	Procedure	BS Priority	Status	RFC Status	LBI	Event	Date
26 Feb 2015	General Surgery	Tauvaë, Deborah (Prof)	PARTIAL GASTRECTOMY (ASSIST.)	2	Unscheduled		150416	2150936	

### 3 List Views

This section describes how to display and work with Waiting List module list views.

#### 3.1.1 Displaying a List

There are many lists throughout the webPAS which filter information for the user. The lists that are available to you depend on the permissions associated with the user's security account.

Some of the hospital level lists that are available in the webPAS Waiting List module include:

- Waiting Lists - Unscheduled
- Booking Contacts Scheduled
- Waiting Lists by Unit
- Booking Contacts Short Notice
- Waiting Lists by Date
- Pre-Assessment List
- Waiting Lists by Doctor
- Waiting List Extract

1. Select a Waiting List View option from the appropriate hospital level drop down list.

- The view toggle  icon allows the view to be changed.
- The drop down lists (i.e. Status, Unit) enables users to apply filters to the list which will either broaden or narrow the results that are returned. The filters default to All.

- The calendar icons     and the calendar look up  enable users to select date ranges. This allows users to filter out records that are either too old or too recent.
- Column headings will sort the data when they are clicked.
- The list can be printed by clicking the printer icon  at the top of the list.
- The list can be filtered by typing text into the search box. 

## 4 Waiting List Activities

This section describes how to:

- Check for existing Waiting List entries
- Add a patient to the Waiting List
- Access Waiting List details
- Access the Patient Visit List
- Suspend a Waiting List entry
- Create a Theatre booking
- Remove a patient from the waiting list

### 4.1 Viewing a Waiting List Entry

1. Select the required patient.
2. Navigate to the Patient Demographic screen.
3. Select **Waiting List** from the appropriate patient level drop down menu.

The Waiting List Details screen will display.

**Note:** Alternatively, use the **Waiting List Search** function from the hospital level **Search** drop down menu. This function prompts the user to search and retrieve the required patient (only shows patients with existing Waiting List entries), and defaults straight to the Waiting List Details screen for that patient.

Date on List	Unit	Doctor	Procedure	B5 Pwait	Status	RFIC Status	LBI	Event	Date
26 Feb 2015	General Surgery	Teuvae, Deborah (Prof)	PARTIAL GASTRECTOMY (ASSIST.)	2	Unscheduled		150416	2150936	

The Waiting List Details screen will display the following information.

- Date the entry was added to the Waiting List
- Associated Unit
- Doctor
- Primary procedure to be performed

- Booking Status Priority
- Ready For Care (RFC) status
- Local Booking Identifier Number
- Event Number
- Date the admission is confirmed (date patient is actually admitted)

Click the calendar  icon to view the Waiting List Details screen for a specific entry.

**Note:** Click the  icon to change the view to see difference Waiting List entry information.

The Waiting List entries displayed can be filtered by Status, using the Status drop down menu at the top of the screen. Status filter options include All, Unscheduled, Scheduled, Pre-admitted, Admitted, Discharged or Removed.

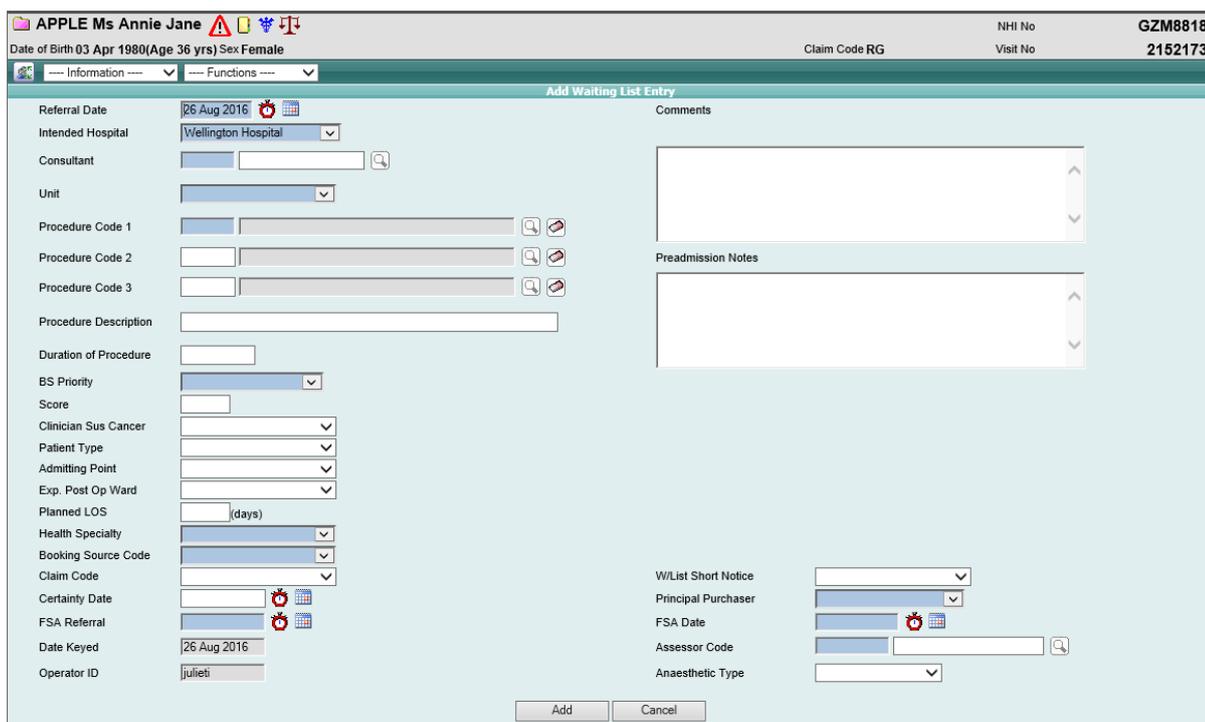

## 4.2 Adding a Patient to the Waiting List

1. Select the required patient.
2. Select **Waiting List** from the appropriate patient level drop down menu.

The Waiting List Details screen will display.

3. Click **New Procedure**.

The Add Waiting List Entry screen will display.

## 5 Supervisor Options

The Supervisor facility enables those users with appropriate access rights to make corrections to a patient's waiting list data and to reverse processes such as changed bookings.

This section details how to:

- Access the Supervisor facility
- Correct errors in Waiting List data

### 5.1 Accessing the Supervisor Facility

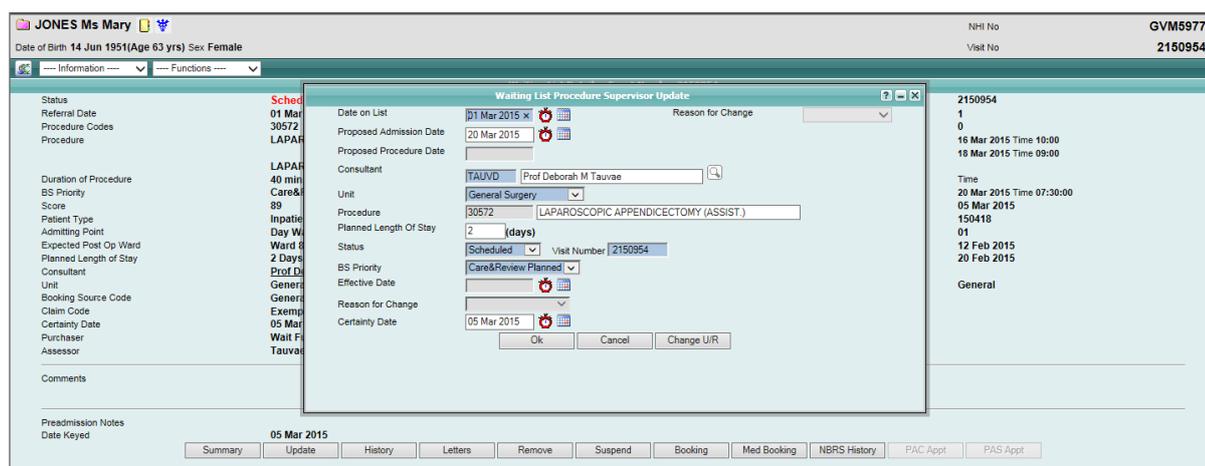

The Supervisor facility enables those with appropriate access rights to make corrections to patient waiting list data, including:

- Date on List
- Consultant
- Unit
- Status

To access the Supervisor facility

1. Select the required patient.
2. Navigate to the required Waiting List entry.
3. Select **Supervisor Options** from the appropriate patient level drop down menu.

The Supervisor Options screen will display.

The screenshot displays the 'Waiting List Procedure Supervisor Update' dialog box. The dialog box has the following fields and values:

- Date on List: 01 Mar 2015
- Proposed Admission Date: 20 Mar 2015
- Proposed Procedure Date: (empty)
- Consultant: TALVD | Prof Deborah M Tauvae
- Unit: General Surgery
- Procedure: 30572 | LAPAROSCOPIC APPENDICECTOMY (ASSIST.)
- Planned Length Of Stay: 2 (days)
- Status: Scheduled
- BS Priority: Care&Review Planned
- Effective Date: (empty)
- Reason for Change: (empty)
- Certainty Date: 05 Mar 2015

Buttons at the bottom of the dialog box are: Ok, Cancel, Change U/R.

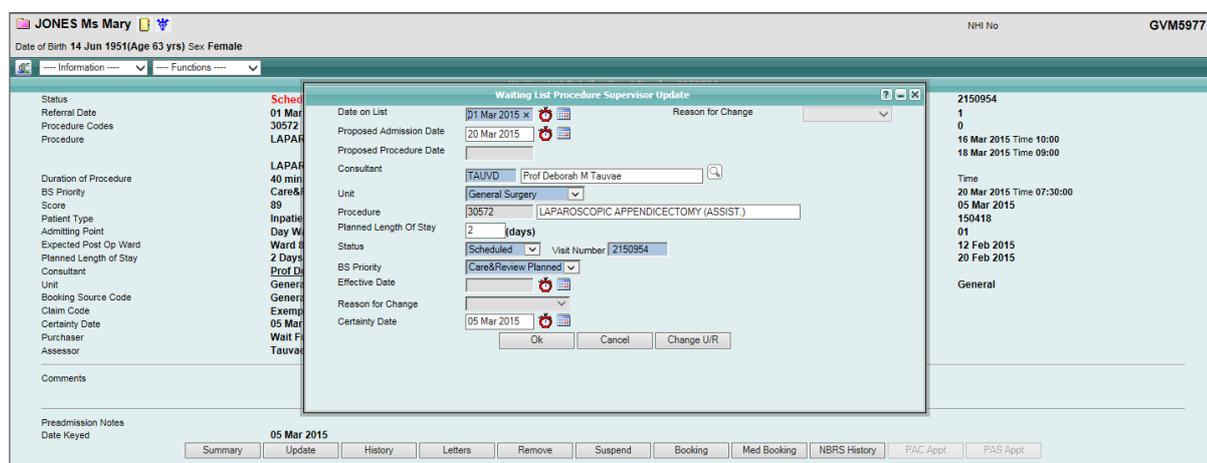

4. Make any necessary changes.
5. Click **Ok**.

### 5.1.1 Changing Patient

The Supervisor Option allows you to move a Waiting List record from one patient to another by changing the NHI number. This functionality is useful when a Waiting List entry has been created for the wrong patient.

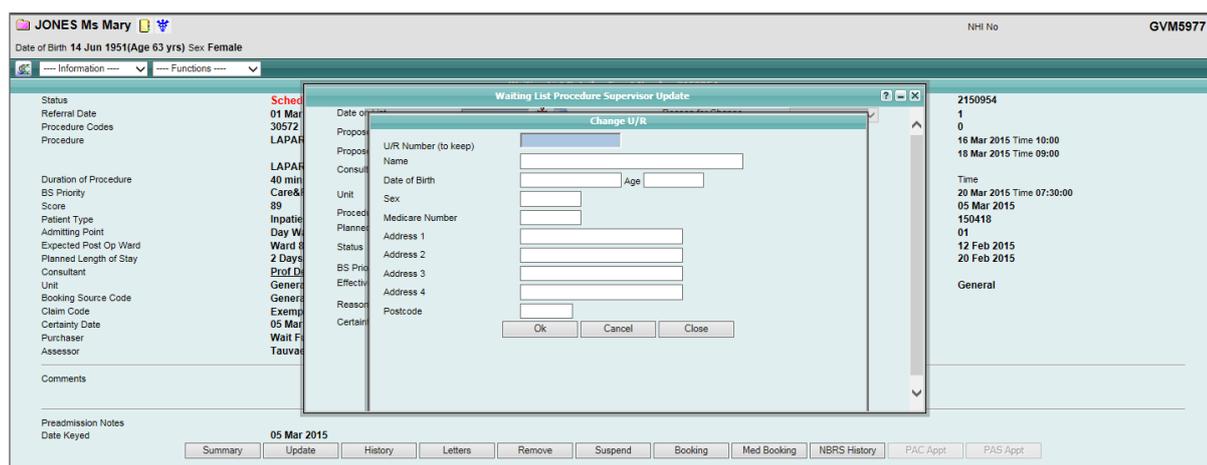

1. Select the required patient.
2. Navigate to the required Waiting List entry.
3. Select Supervisor Options from the appropriate patient level drop down menu.

The Supervisor Options screen will display.

4. Click **Change U/R**.

The Change U/R screen will display.

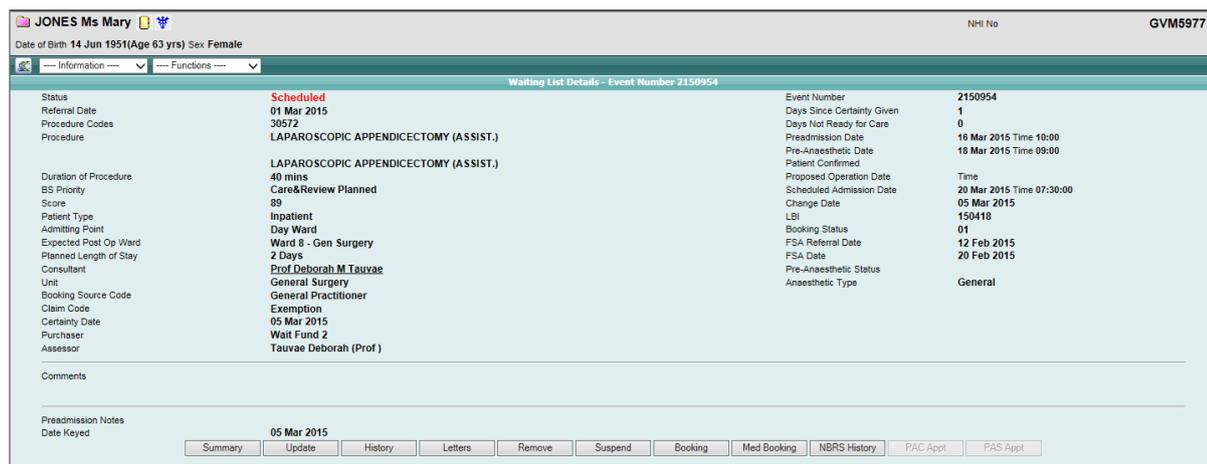

5. Enter the new NHI number in the **U/R Number (to keep)** field. The demographics associated with the new NHI number are displayed.
6. If the patient displayed is the correct new patient, click **Ok**. Otherwise click **Cancel**.

### 5.1.2 Supervisor Suspension

Use the Supervisor Suspension option to suspend a Waiting List entry that has already been scheduled.

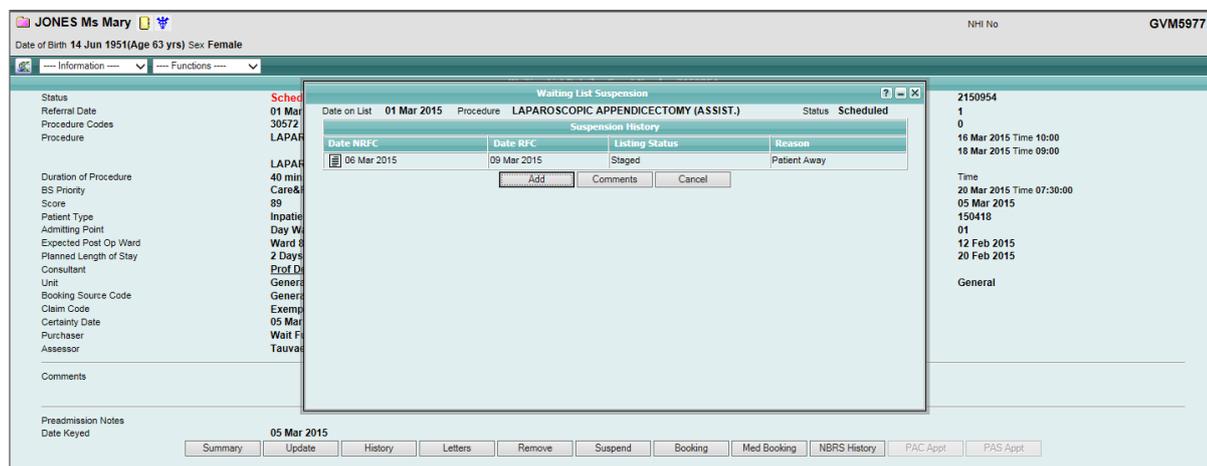

1. Select the required patient.
2. Navigate to the required Waiting List entry.

The **Waiting List Details** screen will display.

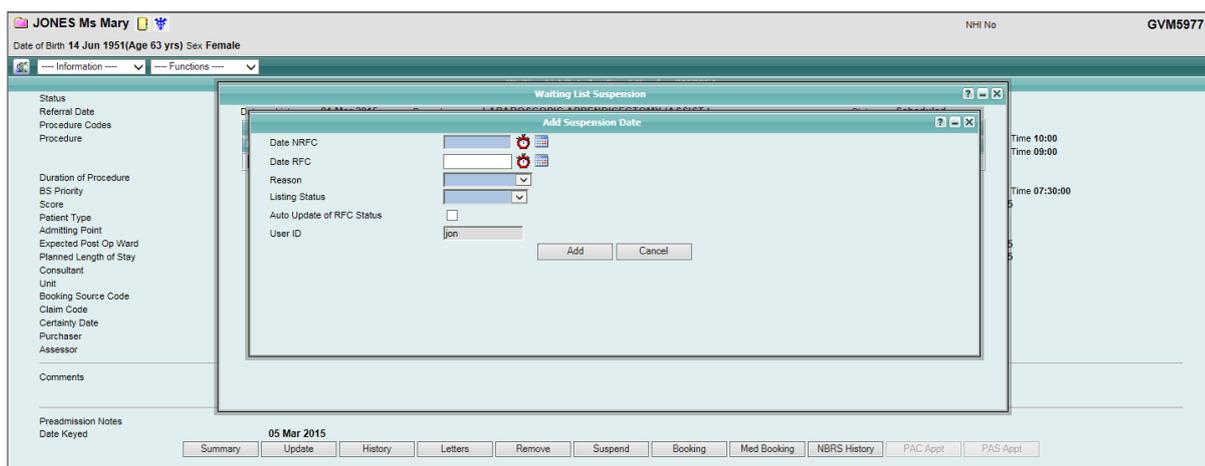

3. Select Supervisor Suspension from the appropriate patient level drop down menu.

The **Waiting List Suspension** screen will display.

4. Click **Add**.

The **Add Suspension Date** screen will display.

5. Enter the details as required.

Field	Description
Date NRFC	Enter the start date for the suspension. The Waiting List module will stop counting Ready for Care days for this entry and start counting Not Ready for Care days once you add the suspend the entry.
Date RFC	Enter the last day of the suspension, if known, otherwise leave this field blank.
Reason	Select a reason from the list for example, Patient on Holidays.
Listing Status	Select a Ready for Care Status from the list if the defaulted status is not suitable.
Auto Update of RFC Status	Select this checkbox if you entered a date in the Date To field. The Waiting List module will automatically change the patient's status from Not Ready for Care to Ready for Care and count the days appropriately.
User ID	Displays the User ID of the user logged on. This field cannot be changed.

6. Click **Add**.

The Waiting List Suspension screen will display.
